SKILLS

Core stack

Laravel · CakePHP · React · Vue · Angular · jQuery

Backend & data

PHP · REST APIs · Auth · MySQL · Query tuning

Frontend

Nuxt · Tailwind CSS · Bootstrap

DevOps & quality

Docker · AWS · Git / GitHub · GitHub Actions · n8n · Playwright

AI-assisted dev

Claude Code · GitHub Copilot · Custom agents

TRAININGS

Visual Graphics Design NC III

GitHub Training

AWS Training

Sidney Medrano

Senior Software Engineer

Full-stack engineer with 5+ years building the internal systems companies run on: time tracking, HR workflows, APIs and the automation around them. I maintain a platform ~7,000 staff use every day and modernize legacy code without breaking what people depend on.

Experience

Cloudstaff Modern Workforce Inc.
Jul 2022 – Present

Senior Software Engineer I

- Develop and maintain StaffCentral (~7,000 users): time tracking, leave, holidays and log corrections on CakePHP 1.3.
- Build request-and-approval workflows with configurable routing, plus HR/Operations reports.
- Ported production endpoints from a legacy CakePHP 3 service to a Laravel 12 API with exact behaviour parity.
- Contribute to Phoenix (Laravel + Angular): APIs, features and decommissioning a legacy integration service.
- Optimize SQL and application performance on large attendance data sets.
- Automate workflows with n8n and critical flows with Playwright E2E tests.
- Built an AI-assisted dev harness on Claude Code with release guardrails and a skeptic review agent.

Bizmates Philippines Inc.
Jan 2022 – Jul 2022

Software Engineer I

- Converted PDF lesson material into reusable HTML/CSS for a web classroom platform.
- Built Nuxt.js frontend features on a Laravel backend, responsive across devices.

Mariano Marcos State University
Sep 2019 – Jan 2022

Computer Programmer I

- Built POS, inventory, payroll, document repository and COVID-19 contact tracing systems.
- Full-stack Laravel and Vue with MySQL, newer systems in React; trained and supported users.

The Black Nazarene Hospital, Inc.
Mar 2019 – Sep 2019

IT Staff

- Built patient records, survey and inventory systems (Laravel, React); trained hospital staff.

Selected project

POS Inventory Platform
2026 · personal

An 85-endpoint Laravel 13 API serving a web back office, an offline-first Electron desktop app and a React Native mobile app. Live demo on the portfolio.

Education

BS Computer Science · cum laude
2014 – 2018

Mariano Marcos State University
